A Selected List of Books

RECOMMENDED BY THE ONTARIO LIBRARY ASSOCIATION FOR PURCHASE BY THE PUBLIC LIBRARIES OF THIS PROVINCE.

The following tables of book production in the leading book countries (taken from the *Publishers' Weekly*) need little comment. The great mass of new books makes very clear the necessity of some guide for our libraries in making their selections from current literature.

The present number is the fourth annual list of selections from the books of the previous year. The Editor is deeply indebted to those who have so kindly placed their expert knowledge at the disposal of our libraries.

The Editor would welcome any notice of errors or omissions in this or any of the Lists, or any suggestions towards making the List more helpful to the libraries. Address—The Editor—Selected List of Books, care Inspector of Public Libraries, Department of Education, Toronto.

The Decimal Classification is the official classification of the Department of Education of Ontario and of the Ontario Library Association. The Inspector of Public Libraries will, on application, give all necessary information in respect of this system.

For additional copies of this, or other numbers of the List, write the Inspector of Public Libraries.

Libraries are recommended to preserve these quarterly lists in bound form, or in a temporary binder, or pamphlet case.

Libraries are recommended to place these Selected Lists on the Reading Room tables, where their readers may look them over and find suggestions to be handed to the Book Committee.

The prices given in the List are, generally speaking, Canadian prices, which differ in a good many instances from British and American prices. The variations are usually slight.

CANADIAN MAGAZINES

The appended list, supplied through the Inspector of Public Libraries, gives the names of magazines published in the Provinces of Ontario, Quebec, Nova Scotia, New Brunswick, Prince Edward Island, and Manitoba, since the year 1791.—Though many of these have ceased publication, the list should be of service to the officers of Public Libraries and Historical Societies for reference.

It does not include religious, medical, educational, scientific, sporting, juvenile, college and class publications, or literary weeklies. Pains have been taken by the compiler to make the record correct, but doubtless there are a few errors.

IMPORTANT NOTICES

By the Inspector of Public Libraries

PUBLIC LIBRARIES ANNUAL REPORTS

Members of Library Boards and library officers, and library patrons, are once more "reminded that a library once having received a Government grant, and having failed to render an annual report to the Department for TWO consecutive years "effects a dissolution of the corporation, and the Minister of Education may take possession of all its books, magazines and periodicals, and dispose of the same as he may deem proper."—*See sec. 29, sub-sec. 1, Public Libraries Act, 1909.*

This all important feature is referred to on page 707, Inspector's Annual Report, 1913.

Invoice Forms.

Secretaries and Librarians must bear in mind that all accounts for Books, Periodicals and Newspapers must be made out and rendered to the Department *upon the forms printed for the purpose and in accordance with printed directions.* These forms can be obtained from the Inspector's office. Two copies of each of these are enclosed with the blank forms of Annual Report mailed to the Secretaries of every library at the end of each year. This requirement is plainly printed on every form. If not complied with the accounts are returned to the negligent library for correction, entailing much uncalled for work upon the office staff, and delay in allotting and paying the share of the legislative grant to which the library might be entitled. The legislative grants to which the libraries may be entitled will in future first be paid to those libraries rendering correct reports and in the order in which they are received.

Librarian's Signature.

While there is marked improvement in rendering the Annual Reports and Invoices, the librarians in many instances still omit to sign their names at the foot of each sheet as instructed. It is the duty of the Secretary to see that all necessary signatures are appended.

Duties of Library Officers.

To set at rest misunderstandings that have existed among some library officials as to the respective responsibilities of the Secretary, Treasurer and Librarian in the preparation of the Annual Reports for the Department, it will be well to remember that the Secretary is responsible for all correspondence, for the purchase of books upon authority of the Board, whose book committee should always consult with the Librarian, and for the correctness of the figures entered by him from the statements prepared by the Treasurer and handed to him for embodying in his annual report, for the correctness of which receipts and expenditures as transcribed by the Secretary the Treasurer must satisfy himself.

In the case of the Librarian. This officer, under authority of the Board, should prepare the figures showing (1) number of books purchased during the year, (2) total number of books in library, and (3) number of volumes issued during the year. The Librarian must also sign the Statement of Invoices (jointly with the Secretary and Treasurer), certifying to the receipt and delivery of all books purchased during the year, also signing every separate sheet of invoice forms as sent in by the booksellers, for the receipt of and condition of which books at time of delivery the Librarian is held responsible.

The Smaller Public Library.

The official attention of all Library trustees and officers and the closest consideration of all library workers is asked, in respect to the article on page 709 of the Annual Report of the Inspector for 1913, headed THE SMALLER PUBLIC LIBRARY. Careful study of this will remove much misapprehension and if the facts as set forth are earnestly and faithfully pondered and resolute action taken, the position of the smaller Association Library cannot help but be improved. The Government has done more than its share. The continued existence and development of the smaller libraries and the advances it is hoped they will make in 1914 will depend chiefly upon the efforts of the members of the communities interested. If further information is needed upon any point not readily understood or not touched upon, communicate at once with the Inspector of Public Libraries.

Qualification for Legislative Grant.

No Association Library can qualify for a share of the Legislative annual grant unless it can make declaration that it has FIFTY (50 contributing) members of adult age. Pages 709 and 710 of the Inspector's Report for 1913 should be carefully studied in this connection.

New Libraries.

Communities anxious to establish an Association Library where none has hitherto existed, or wishing to reorganize a library that has been removed from the active list, should read pages 507-510, Inspector's Report for 1911, which gives explicit information.

Converting an Association Library into a Free Library.

Full information as to the conversion of an Association Library into a Free Library will be found on page 510, Inspector's Report for 1911, which gives complete references to the sections of the Public Libraries Act of 1909 which bear upon the subject.

Amendments to Public Libraries Act of 1909.

All amendments to the Public Libraries Act of 1909 that have been authorized prior to March 30th, 1913, are shown on page 795, Inspector's Report for 1913.

Travelling Libraries.

Public Libraries or communities (Women's or Farmers' Institutes or Study Clubs, even individual students) desiring the loan of a free Travelling Library, or a special collection of books, should write to the Inspector for a printed form of application. See pages 522-536, Inspector's Report for 1911.

Technical Libraries.

The Board of Management of a Library in any town in which industries are located can obtain the loan of a Travelling Library of Technical Books for the special use of the resident artisans, relating to their daily vocational work, after filing a list of local industries with the Inspector.

Period of Loan.

All Travelling Libraries are loaned for a period of three months, renewable by arrangement upon application.

Classifying and Cataloguing.

Tables showing the approximate cost of classifying the books in Libraries under the Dewey Decimal System and for installing a card system of cataloguing will be mailed on application. This applies to those Libraries requiring the services of the Departmental Cataloguer, whose services are provided by the Minister of Education, by arrangement with the Inspector, free of cost to the Public Library.

Libraries Unable to Exist.

Any Library that has at any time received a Government grant, and has subsequently been compelled to close, must at once report the circumstance to the Department, and ask for instructions as to the disposal of its books, magazines, and periodicals, the disposition of which under the Library Act is vested in the Minister of Education.

Summer Library School.

The Minister of Education has provided for the holding of a Fourth session of the Ontario Library School this summer in Toronto for the instruction of Librarians and others. The session it is hoped will open the first week in June, 1914, and continue for a period of four weeks. Library workers, or those contemplating engaging in Library work, should make application for entrance to the school to the Inspector of Public Libraries, Education Department, Parliament Buildings, Toronto, not later than May the 9th. Further particulars supplied upon application.

New Library Buildings.

Duplicate plans of all NEW Library Buildings, whether erected by a donation from the Carnegie Corporation or otherwise, must be filed with the Minister of Education before construction commences.

Library Institutes.

Library Boards that neglected last year to send a delegate are again reminded that unless they arrange to send a delegate to the annual meeting of their District Library Institute this year—1914—the sum of five dollars will be deducted from their next annual grant, under section 26, sub-section 2, Public Libraries Act, 1909.

Departmental Publications.

Secretaries and Librarians are once more notified that all official publications issued by this branch of the Department relating to Library work, such as the (1) Inspector's Annual Reports, the (2) Annual Reports of the Ontario Library Association, the (3) Quarterly Selected Lists of Books, must be kept by the Librarian for ready use for the members of the Board, the officers of the Library and its patrons—*and be bound and preserved for reference purposes.*

Ontario Library Association.

The Annual Meeting of the Ontario Library Association will be held as usual on Easter Monday and Tuesday, which days fall this year (1914) on April 13th and 14th. The meeting will be held in the Reference Library, College Street, Toronto, Mr. W. F. Moore, Dundas, Ont., President, and Dr. E. A. Hardy, 81 Collier Street, Toronto, Secretary. A practical and admirable programme has been prepared, the outside speaker being Mr. M. S. Dudgeon, Secretary Wisconsin Free Library Commission, Madison. It is most important that every Public Library Board in Ontario should send a representative. Every library and every library worker should affiliate

if they have not already done so. In answer to many enquiries, I would state that while membership in the O. L. A. by any Public Library is not compulsory, being left entirely to the sense of the "fitness of things" by a Library Board, it is obviously "good business" to be placed on the roll of membership, as the subscription is merely a trifle, and in view of what the O. L. A. has done and is doing in the general interests of the library workers of the Province, the Association deserves all the practical support possible. Come, then, to this meeting, not only to listen and learn, but to take an active part in its important deliberations and round-table conferences.

AMERICAN LIBRARY ASSOCIATION.

Annual Meeting at Washington, D.C., 1914.

The following letter recently received from Mr. Geo. B. Utley, Secretary of the American Library Association, 78 E. Washington Street, Chicago, calls for the most favorable consideration of every library worker in this Province:

"Before this you have probably learned that the next meeting of the American Library Association will be held in Washington, D.C., May 25 to 30. I am quite anxious that a large number of Canadian librarians should attend this Washington meeting and that the meeting may be to Canadian librarians in the nature of a visit to our national capital in return to our visit to your national capital in 1912. I do not know whether you have a Bulletin or any printed agency for extending this desire to the Librarians of Ontario or not, but I shall be very glad to have you, in whatever way you can, spread this sentiment throughout your Province, and for that matter to the other parts of Canada as well. It is the intention of the Programme Committee to lighten the programme so as to give sufficient time for delegates to visit the many libraries and other educational features of Washington."

LIBRARY ASSOCIATION OF THE UNITED KINGDOM

President: Right Hon. The Earl of Malmesbury, D.L., M.A., C.A.
Chairman of Council: H. R. Tedder, F.S.A.
Honorary Secretary: L. Stanley Jast.

ANNUAL MEETING AT OXFORD, 1914

The next Annual Meeting of the Library Association will be held at Oxford, by the invitation of the Curators of the Bodleian Library, and the Mayor and Corporation of the City, from Monday, August 31st, to Friday, Sept. 4th, 1914. The Vice-Chancellor of the University is *ex officio* chairman of the Board of Curators, and the Mayor of the City is Chairman of the City Library Committee.

As it is expected that there will be a large gathering of the Members of the American Library Association and also of Canadian Librarians, an endeavour will be made to give a kind of international tone to the meeting, and to arrange for papers and discussions on subjects of wider and more general interest than usual.

The following are among the subjects which may be placed on the programme. In each case a member and a visitor will be invited to begin the debate, which will then be open for general discussion:—

The place of the Library in a University.
The legitimate field of the Public Municipal Library.
The duties of a Library Committee-man or Trustee.
Modern influences antagonistic to the reading of books.
Principles of book selection and book rejection.

The following may be the subjects of special papers:—

The development of the Library Association since the first annual meeting at Oxford in 1878.
Modern methods of accelerating the supply of books to readers.
A history of the Title-page (with lantern slides, and an exhibition in the Bodleian Picture Gallery).
The historical extension of the Bodleian buildings (with lantern slides).
Oxford in Literature.
National Libraries for the Blind.
Recent developments in Library planning.

The general scheme of the meeting (subject to alteration) is that papers will be read at the morning sessions, excursions to the Bodleian Library, College Libraries, the City Library, the Castle (built by the first Norman Governor of Oxford), the Cathedral, the Colleges, Blenheim Palace (the seat of the Duke of Marlborough), Iffley (with its fine Norman Church), and Nuneham (the seat of the Rt. Hon. L. Harcourt, M.P.)—the last two reached by river—and other places are contemplated for the afternoons; while a reception by the University and City authorities, a Conversazione in the Ashmolean Museum, the Associated Dinner, and one or more lectures on Oxford may be arranged for the evenings.

Lists of Hotels and Lodging Houses, with prices, will be issued in due course. It is hoped that the Colleges will find themselves able to take in some at least of the guests from abroad.

Further details will be published in ample time, but the Council and Local Committee desire to take the earliest opportunity of extending a most cordial invitation and welcome to their brothers and colleagues across the seas. Intimation of intention to be present should be sent in as early as possible, using the attached form for that purpose, so that full particulars may be addressed in good time to those who expect to attend the meeting.

On this occasion Librarians from the United States of America, the Dominions of Canada and Australia, the Union of South Africa, India and the Continent of Europe, are invited to attend without the payment of any subscription. Residents in the United Kingdom, not already fellows or members, may become local members on payment of the subscription of one guinea.

Letters and other communications in regard to attendance, accommodation, and local arrangements and excursions, should be addressed to the Librarian, Bodleian Library, Oxford, or to the Librarian, City Library, Town Hall, Oxford.

Letters on subjects and papers in the programme, should be addressed to the Honorary Secretary of the Publications Committee (HENRY BOND), or to the Honorary Secretary (L. STANLEY JAST), at the Headquarters of the Association, Caxton Hall, Westminster, S.W.

December 10th, 1913.

Detach and forward to Librarian, Bodleian Library, Oxford.

A Selected List of Books

RECOMMENDED BY THE ONTARIO LIBRARY ASSOCIATION FOR PURCHASE BY THE PUBLIC LIBRARIES OF THIS PROVINCE.

This number of the Selected List of Books contains suggested titles from the publications of the first half of 1914. There is a general agreement of opinion that 1914 has not proved, up to the present, more than an average year, in either the quantity or the quality of the books produced.

It must always be remembered that parts II. and IV. of the Selected Lists are suggestions rather than recommendations. Part I contains the annual lists of the recommended books of the previous year as selected by experts in various departments.

At the request of the Inspector of Public Libraries the Editor has marked with an asterisk a few books that are specially recommended. This has been done to assist the Book Committees of the smaller libraries which have only a few dollars for new books. A few books have been marked with a double asterisk as a specially select list.

The Editor would welcome any notice of errors or omissions in this or any of the Lists, or any suggestions towards making the List more helpful to the libraries. Address—The Editor—Selected List of Books, care Inspector of Public Libraries, Department of Education, Toronto.

The Decimal Classification is the official classification of the Department of Education of Ontario and of the Ontario Library Association. The Inspector of Public Libraries will, on application, give all necessary information in respect of this system.

For additional copies of this, or other numbers of the List, write the Inspector of Public Libraries.

Libraries should preserve these quarterly lists in bound form, or in a temporary binder, or pamphlet case.

Libraries are recommended to place these Selected Lists on the Reading Room tables, where their readers may look them over and find suggestions to be handed in to the Book Committee. A suggestion book or pad of suggestion slips should be conveniently placed.

The prices given in the List are, generally speaking, Canadian prices, which differ in a good many instances from British and American prices. The variations are usually slight.

G. P. Putnam's Sons announce that on and after July 31, 1914, their entire list of publications will be on the net basis.

Rand, McNally, Chicago, are issuing a War Atlas (25c.), containing various maps showing the situation in Mexico in relation to the United States and the rest of the world concerned; also a war map, 26 x 19 inches, showing the Mexican situation at a glance, and giving statistics and other information.

Williams & Norgate have added fifteen volumes to the Home University Library, as follows: January 5th—Bennett, E. M., "Problems of Village Life"; Pigou, A. C., "Unemployment"; Munro, Robert, "Prehistoric Britain"; Vinogradoff, Paul, "Common-sense in Law"; Moore, George, "Literature of the Old Testament." May 12th—Hadow, Grace, "Chaucer and His Times"; Cole, Grenville, "The Growth of Europe"; Brock, A. C., "William Morris: His Work and Influence"; Watson, Canon, "The Church of England"; Geddes, Patrick, and Thomson, J. A., "Sex." July 7th—Lunn, Albert, "The Alps"; Shepherd, W. R., "Central and South America"; Sichel, Edith, "The Renaissance"; Charles, R. H., "Religious Development between the Old and the New Testaments"; Robertson, J. M., "Elizabethan Literature." Toronto: Briggs (Williams & Norgate), 25c. each.

"The Wayfarers' Library embraces all that is healthy, clean and good in the lighter field of modern literature, ranging from works of pure romance to the best collective essays of the day. The first issue consists of 100 volumes, to be published at the rate of twelve per month." About fifty volumes of this attractive collection of the best in recent literature are now in print at 25c. a volume. This series is supplementary to Everyman's Library and both "Everyman's" and "The Wayfarers'" are a boon to our libraries, enabling the small libraries especially to stock up with standard and recent literature at a very small cost. Toronto: J. M. Dent & Co.

"An Economic History of Russia," by Prof. James Mavor, Ph.D., of the University of Toronto, is a work of unusual interest and value. Many years of close study of Russian life and history have placed Prof. Mavor in the front rank of students of Russia. A personal acquaintance with Tolstoi, Kropotkin and many other Russians of importance in both official and non-official classes, and repeated visits to Russia, including the Trans-Siberian tour, have aided the author in producing a monumental work, which has been recently reviewed by the *London Times* as an outstanding work of high importance. It is a timely and authoritative work which should be in all our larger public libraries. Public-spirited citizens might be induced to place this along with the recent memoirs of Cartwright and Tupper on the shelves of libraries unable to purchase these books out of regular funds. Toronto: J. M. Dent, 2 vols., $7.50.

A Selected List of Books

RECOMMENDED BY THE ONTARIO LIBRARY ASSOCIATION FOR PURCHASE BY THE PUBLIC LIBRARIES OF THIS PROVINCE.

The present number contains brief bibliographies of Canadian Poetry, Fiction, Biography, and Periodicals. No attempt has been made to have complete bibliographies of either section or author. The titles have been chosen chiefly on the grounds of availability and value.

The Editor would welcome any notice of errors or omissions in this or any of the Lists, or any suggestions towards making the List more helpful to the libraries. Address—The Editor—Selected List of Books, care Inspector of Public Libraries, Department of Education, Toronto.

The Decimal Classification is the official classification of the Department of Education of Ontario and of the Ontario Library Association. The Inspector of Public Libraries will, on application, give all necessary information in respect of this system.

For additional copies of this, or other numbers of the List, write the Inspector of Public Libraries.

Libraries are recommended to preserve these quarterly lists in bound form, or in a temporary binder, or pamphlet case.

Libraries are recommended to place these Selected Lists on the Reading Room tables, where their readers may look them over and find suggestions to be handed to the Book Committee.

The prices given in the List are, generally speaking, Canadian prices, which differ in a good many instances from British and American prices. The variations are usually slight.

The special attention of Library Trustees, officers and others interested in library work is directed to the "IMPORTANT MEMORANDUM" by the Inspector of Public Libraries, on pages 24 and 25 of this issue.

CANADIAN MAGAZINES.

The appended list, supplied through the Inspector of Public Libraries, gives the names of magazines published in the Provinces of Ontario, Quebec, Nova Scotia, New Brunswick, Prince Edward Island, and Manitoba, since the year 1791.—Though many of these have ceased publication, the list should be of service to the officers of Public Libraries and Historical Societies for reference.

It does not include religious, medical, educational, scientific, sporting, juvenile, college and class publications, or literary weeklies. Pains have been taken by the compiler to make the record correct, but doubtless there are a few errors.

IMPORTANT MEMORANDUM

Relating to the Rendering of Public Library Annual Reports

for the

Guidance of Members of the Boards of Management and Officers of Public Libraries.

Your especial attention is again directed to the neglect of many library officials who fail to comply with the well-known requirements of the Public Library Act, the Regulations, and other printed instructions relating to the rendering of Annual Reports and preparation of accompanying invoices. All such invoices must be entered separately with names of the dealers supplying the articles on the "Statement of Invoices," and numbered consecutively.

The library year runs concurrently with the calendar year. That is from January 1st to December 31st.

The Annual Government Grant to any library is allotted only upon the amounts expended by the library during that calendar year. That is during the twelve month period upon which every library is called upon to report, which—under the Act—it must do before the 15th day of February of the next succeeding year. *No expenditure can be taken into consideration if it represents payment for articles not received and not paid for during that library year reported upon.*

Subscriptions for Magazines, Periodicals and Newspapers should, therefore, commence with January 1st and end with December 31st of the same year. But, whether subscriptions are for the twelve months or only for a part of that year, the period subscribed for must not include any portion of the previous year, nor any portion of the next following year.

All such accounts must be rendered by the Bookseller or News Agent, upon the printed blank Invoice forms issued by the Department, "Blue" for Adult Non-Fiction, "Red" for Adult Fiction, "White" for all Juvenile books, and "Green" for magazines, etc., which forms can be obtained upon application to the Inspector's office.

In the case of expenditure on account of *Book* Binding during the year, the Invoices must show the price of binding per volume and give the number of books bound, showing Non-Fiction and Fiction separately. Nothing can be paid for binding periodicals, etc.

In respect to expenditures on account of Classifying and Cataloguing, only payments for goods purchased for the purpose of installing the Dewey Decimal system of classification and the necessary Card Catalogue Index—approximate estimates of cost of which can be obtained from the Department—and which have been paid for by the library during the year that this system is introduced by the Official Cataloguer—can be recognized. The cost of "*material*" *only* can be considered. Nothing can be paid for "services," nor on account of any expense incurred in introducing any other system of classification. Nor can anything be paid on account of *printed Catalogues.* Nothing can be paid on account of an *Accession* Book which is part of the regular equipment of every library, nor can anything be allowed on account of Card Cabinets or any other similar furniture.

While the official cataloguer may be authorized to introduce a "Charging System," the cost of materials needed for this purpose must be borne by the library interested. No government aid can be granted on this, the cost of the Circulation of books being a part of the regular annual expense incurred by all libraries, no matter what method of Cataloguing may be followed.

No Books or Magazines, etc., can be given away or sold without departmental consent. The proceeds from all sales on this account must be expended on either Books or Magazines as the case may be.

Insurance must be carried on all Books, Magazines, and Newspapers, and the amount of Insurances and date of premiums paid must be entered each year in the space set apart for the purpose under paragraph 3, page 3, of the printed blank forms of Annual Reports.

In all cases where the signature of a female library officer is required the prefix "Mrs." or "Miss" is necessary.

These business requirements under the Act, though in force for several years, have been either wholly or in part ignored by many Library Boards and their officers. If library officials would take the trouble to read the Inspector's annual reports and other printed instructions, they would not have to plead ignorance. Read carefully these printed Annual Reports of the Inspector of Public Libraries; read the Public Libraries Act; also the extracts from this Act and other information printed on the blank forms of your Annual Reports; read the headings of all invoice forms, and the instructions that appear from time to time in certain issues of the quarterly "Selected Lists of Books"—printed especially for your information; then fill in your Reports correctly and save much letter writing, delay in paying you your annual grants, and time and labor to all concerned.

Library Boards failing to send a delegate to their district Library Institute after due notification are again reminded that a deduction of $5.00 will be made from the next Government grant that may be payable to their library. These Institutes are held at great expense by the Government for the special purpose of imparting information, instructions and advice to library officers and members of Boards, and those who neglect to take advantage of the privilege and share the benefits are subject to the provisions of Subsection 2, Sec. 26 of the Act. Copies of the Public Libraries Act of 1909 can be obtained from the Inspector of Public Libraries, Department of Education, Toronto.

NOTE.—*If any additional information or particulars relating to Public library work in Ontario not referred to in the preceding paragraphs are needed by anyone concerned, the Inspector of Public Libraries should be communicated with* direct, *as experience has proved that non-official advice, however well intentioned, has sometimes been inaccurate.*

A Selected List of Books

RECOMMENDED BY THE ONTARIO LIBRARY ASSOCIATION FOR PURCHASE BY THE PUBLIC LIBRARIES OF THIS PROVINCE.

The present number contains selections from the books of 1914 issued from July to December. Limitations of time and space prevent the usual annotations in this number, but it is the intention to annotate as carefully as possible Vol. XIV., Part I., which will contain the selections from the books of 1914 recommended by experts in their various departments.

The Editor would welcome any notice of errors or omissions in this or any of the Lists, or any suggestions towards making the List more helpful to the libraries. Address—The Editor—Selected List of Books, care Inspector of Public Libraries, Department of Education, Toronto.

The Decimal Classification is the official classification of the Department of Education of Ontario and of the Ontario Library Association. The Inspector of Public Libraries will, on application, give all necessary information in respect of this system.

For additional copies of this, or other numbers of the List, write the Inspector of Public Libraries.

Libraries are recommended to preserve these quarterly lists in bound form, or in a temporary binder, or pamphlet case.

Libraries are recommended to place these Selected Lists on the Reading Room tables, where their readers may look them over and find suggestions to be handed to the Book Committee. Suggestion slips should also be provided for convenience in making these suggestions.

The prices given in the List are, generally speaking, Canadian prices, which differ in a good many instances from British and American prices. The variations are usually slight.

The beautiful illustrations in the Bookman are especially attractive and both contain informing reviews of many books in all departments.

IMPORTANT NOTICES—"A"

By the Inspector of Public Libraries.

PUBLIC LIBRARIES ANNUAL REPORTS

Members of Library Boards and library officers, and library patrons are again "reminded that a library once having received a Government grant, and having failed to render an annual report to the Department for TWO consecutive years" . . . "effects a dissolution of the corporation, and the Minister of Education may take possession of all its books, magazines and periodicals, and dispose of the same as he may deem proper."—*See sec.* 29, *sub-sec.* 1, *Public Libraries Act*, 1909.

This important feature is referred to on page 707, Inspector's Annual Report, 1913.

Invoice Forms.

Secretaries and Librarians must bear in mind, that all accounts for Books, Periodicals and Newspapers must be made out and rendered to the Department *upon the forms printed for the purpose and in accordance with printed directions.* These forms can be obtained from the Inspector's office. Two copies of each of these are enclosed with the blank forms of Annual Report mailed to the Secretaries of every library at the beginning of each year. All requirements are plainly printed on every form. If not complied with, the invoices, etc., are returned to the negligent library for correction, entailing much uncalled for work upon the office staff, and delay in allotting and paying the share of the legislative grant to which the library might be entitled. The legislative grants to which the libraries may be entitled will in future first be paid to those libraries rendering correct reports and in the order in which they are received.

Librarian's Signature.

While there is marked improvement in rendering the Annual Reports and Invoices, the librarians in many instances still omit to sign their names at the foot of each sheet as instructed. It is the duty of the Secretary to see that all necessary signatures are appended.

Duties of Library Officers.

To set at rest misunderstandings that have existed among some library officials as to the respective responsibilities of the Secretary, Treasurer and Librarian of the ordinary library (if there are such separate officers) in the preparation of the Annual Reports for the Department, it will be well to remember that the Secretary is responsible for the forwarding of the Annual Report to the Inspector and for all correspondence, and in respect to the correctness of the figures entered by him from the statements prepared by the Treasurer and Librarian and handed to him for embodying in his annual report, for the correctness of which receipts and expenditures as transcribed by the Secretary the Treasurer must satisfy himself.

In the case of the Librarian. This officer, under authority of the Board, should prepare the figures showing (1) number of books purchased during the year, (2) total number of books in library, and (3) number of volumes issued during the year. The Librarian must also sign the Statement of Invoices (jointly with the Secretary and Treasurer), certifying to the receipt and delivery of all books purchased during the

year, also signing every separate sheet of invoice forms as sent in by the booksellers, for the receipt of and condition of which books at time of delivery the Librarian is held responsible. The Librarian should be consulted at all times by the Board in respect to the selection of new books, and unless there is good reason for the contrary should attend all Board meetings.

The Smaller Public Library.

The official attention of all Library trustees and officers and the closest consideration of all library workers is asked, in respect to the article on page 709 of the Annual Report of the Inspector for 1913, headed THE SMALLER PUBLIC LIBRARY. Careful study of this will remove much misapprehension and if the facts as set forth are earnestly and faithfully pondered and resolute action taken, the position of the smaller Association Library cannot help but be improved. The Government has done more than its share. The continued existence and development of the smaller libraries and the advances it is hoped they will make in future years will depend chiefly upon the efforts of the members of the communities interested. If further information is needed upon any point not readily understood or not touched upon, communicate at once with the Inspector of Public Libraries.

Qualification for Legislative Grant.

No Association Library can qualify for a share of the Legislative annual grant unless it can make declaration that it has FIFTY (50 contributing) members of adult age. Pages 709 and 710 of the Inspector's Report for 1913 should be carefully studied in this connection.

New Libraries.

Communities anxious to establish an Association Library where none has hitherto existed, or wishing to reorganize a library that has been removed from the active list, should read in addition to the Public Libraries Act, pages 507-510, Inspector's Report for 1911, which gives explicit information.

Converting an Association Library into a Free Library.

Full information as to the conversion of an Association Library into a Free Library will be found on page 510, Inspector's Report for 1911, which gives complete references to the sections of the Public Libraries Act of 1909 which bear upon the subject, and clearly explains upon what basis the Government grant is allotted and paid. Secretaries before writing to the Inspector for information should first refer to the Inspector's Annual Reports in their possession.

Amendments to Public Libraries Act of 1909.

All amendments to the Public Libraries Act of 1909 that have been authorized prior to March 30th, 1913, are shown on page 795, Inspector's Report for 1913.

Travelling Libraries.

Public Libraries or communities (Women's or Farmers' Institutes or Study Clubs, even individual students) desiring the loan of a free Travelling Library, or a special collection of books, should write to the Inspector for a printed form of application. See pages 522-536, Inspector's Report for 1911.

Technical Libraries.

The Board of Management of a Library in any town in which industries are located can obtain the loan of a Travelling Library of Technical Books for the special use of the resident artisans, relating to their daily vocational work, after filing a list of local industries with the Inspector.

Period of Loan.

All Travelling Libraries are loaned for a period of three months, renewable by arrangement upon application.

Classifying and Cataloguing.

Tables showing the approximate cost of classifying the books in Libraries under the Dewey Decimal System and for installing a card system of cataloguing will be mailed on application. This applies to those Libraries requiring the services of the Departmental Cataloguer, whose services are provided by the Minister of Education, by arrangement with the Inspector, free of cost to the Public Library.

Libraries Unable to Exist.

Any Library that has at any time received a Government grant, *and has subsequently been compelled to close, must at once report the circumstance to the Department, and ask for instructions as to the disposal of its books, magazines, and periodicals, the disposition of which under the Library Act is vested in the Minister of Education.*

Summer Library School.

The Minister of Education has provided for the holding of a Summer Library School in Toronto for the instruction of Librarians and others. The session opens about the last week in May, and continues for a period of four weeks. Library workers, or those contemplating engaging in Library work, should make application for entrance to the School to the Inspector of Public Libraries, Education Department, Parliament Buildings, Toronto, not later than the first of May. Further particulars supplied upon application.

New Library Buildings.

Duplicate plans of all NEW Library Buildings, whether erected by a donation from the Carnegie Corporation or from any other person or persons, must be filed by the Library Board interested with the Minister of Education before construction commences. These plans must not be blue-prints, but black and white drawings.

Library Institutes.

Library Boards that neglect to send a delegate to the local district Institute are again reminded that unless they arrange to send a delegate to the annual meeting of their District Library Institute, the sum of five dollars will be deducted from their next annual grant, under section 26, sub-section 2, Public Libraries Act. 1909.

Departmental Publications.

Secretaries and Librarians are once more notified that all official publications issued by this branch of the Department relating to Library work, such as the (1) Inspector's Annual Reports, the (2) Annual Reports of the Ontario Library Association, the (3) Quarterly Selected Lists of Books, must be kept by the Librarian for ready use for the members of the Board, the officers of the Library and its patrons—*and be bound and preserved for reference purposes.* The editions are limited and most difficult to duplicate.

Ontario Library Association.

The Annual Meeting of the Ontario Library Association is held on Easter Monday and Tuesday, in Toronto. Dr. E. A. Hardy, 81 Collier Street, Toronto, is the Secretary. Practical programmes are prepared. It is important that every Public Library Board in Ontario should send a representative. Every library and every library worker should affiliate, if they have not already done so, with this Association. The fee is nominal. In answer to many enquiries, I would state that while membership in the O. L. A. by any Public Library is not compulsory, being left entirely to the judgment of a Library Board, it is obviously "good business" to be placed on the roll of membership. In view of what the O. L. A. has done and is doing in the general interests of the library workers of the Province, the Association deserves all the practical support possible.

IMPORTANT MEMORANDUM "B"

Relating to the Rendering of Public Library Annual Reports for the Guidance of Members of the Boards of Management and Officers of Public Libraries.

Your especial attention is again directed to the neglect of many library officials who fail to comply with the well-known requirements of the Public Library Act, the Regulations, and other printed instructions relating to the rendering of Annual Reports and preparation of accompanying invoices. All such invoices must be entered separately with names of the dealers supplying the articles on the "Statement of Invoices," and numbered consecutively.

The library year runs concurrently with the calendar year. That is from January 1st to December 31st.

The Annual Government Grant to any library is allotted only upon the amounts expended by the library during that calendar year. That is during the twelve months period upon which every library is called upon to report, which—under the Act—it must do before the 15th day of February of the next succeeding year. *No expenditure can be taken into consideration if it represents payment for articles not received and not paid for during that library year reported upon.*

Subscriptions for Magazines, Periodicals and Newspapers should, therefore, commence with January 1st and end with December 31st of the same year. But, whether subscriptions are for the twelve months or only for a part of that year, the period subscribed for must not include any portion of the previous year, nor any portion of the next following year.

All such accounts must be rendered by the Bookseller or News Agent, upon the printed blank Invoice forms issued by the Department, "Blue" for Adult Non-Fiction, "Red" for Adult Fiction, "White" for all Juvenile books, and "Green" for magazines, etc., which forms can be obtained upon application to the Inspector's office.

In the case of expenditure on account of *Book* Binding during the year, the Invoices must show the price of binding per volume and give the number of books bound, showing Non-Fiction and Fiction separately. Nothing can be paid for binding periodicals, etc.

In respect to expenditures on account of Classifying and Cataloguing, only payments for goods purchased for the purpose of installing the Dewey Decimal system of classification and the necessary Card Catalogue Index—approximate estimates of cost of which can be obtained from the Department—and which have been paid for by the library during the year that this system is introduced by the Official Cataloguer—can be recognized. The cost of "*material only*" can be considered. Nothing can be paid for "services," nor on account of any expense incurred in introducing any other system of classification. Nor can anything be paid on account of an *Accession* Book which is part of the regular equipment of every library, nor can anything be allowed on account of Card Cabinets or any other similar furniture.

While the official cataloguer may be authorized to introduce a "Charging System," the cost of materials needed for this purpose must be borne by the library interested. No Government aid can be granted on this, the cost of the Circulation of books being a part of the regular annual expense incurred by all libraries, no matter what method of Cataloguing may be followed.

No Books or Magazines, etc., can be given away or sold without Departmental consent. The proceeds from all sales on this account must be expended on either Books or Magazines, as the case may be.

Insurance must be carried on all Books, Magazines, and Newspapers, and the amount of Insurances and date of premiums paid must be entered each year in the space set apart for the purpose under paragraph 3, page 3, of the printed blank forms of Annual Reports.

In all cases where the signature of a female library officer is required the prefix "Mrs." or "Miss" is necessary.

These business requirements under the Act, though in force for several years, have been either wholly or in part ignored by many Library Boards and their officers. If library officials would take the trouble to read the Inspector's Annual Reports and other printed instructions, they would not have to plead ignorance. Read carefully these printed Annual Reports of the Inspector of Public Libraries; read the Public Libraries Act; also the extracts from this Act and other information printed on the blank forms of your Annual Reports; read the headings of all invoice forms, and the instructions that appear from time to time in certain issues of the quarterly "Selected List of Books"—printed especially for your information; then fill in your Reports correctly and save much letter writing, delay in paying you your annual grants, and time and labor to all concerned.

Library Boards failing to send a delegate to their District Library Institute after due notification are again reminded that a deduction of $5.00 will be made from the next Government grant that may be payable to their library. These Institutes are held at great expense by the Government for the special purpose of imparting information instructions and advice to library officers and members of Boards, and those Library Boards who neglect to take advantage of the privilege and share the benefits are subject to the provisions of Subsection 2, Sec. 26 of the Act. Copies of the Public Libraries Act of 1909 can be obtained from the Inspector of Public Libraries, Department of Education, Toronto.

NOTE.—If any additional information or particulars relating to Public library work in Ontario not referred to in the preceding paragraphs are needed by anyone concerned, the Inspector of Public Libraries should be communicated with direct, as experience has proved that non-official advice, however well intentioned, has sometimes been inaccurate.

WALTER R. NURSEY.
Inspector of Public Libraries, Parliament Buildings, Toronto.

SPECIAL MEMO: For Chairmen of Library Boards.

For purposes of insertion in the Inspector's Annual Report, Chairmen of Library Boards are particularly requested upon receipt of this to mail to the Inspector, the names of any men or women connected in any way with their Public Library, whether officials or members of the Board, who have either volunteered or have otherwise been called upon to join any Canadian Contingent or any Military or other organization with the object of engaging in Active Service in defence of flag and country. The full names and occupations of such persons are requested, with designation of the regiment or organization with which they are now identified.

Inspector of Public Libraries.
